PROFESSIONAL SUMMARY

QA Engineer with hands-on experience in Manual and Automation Testing using Selenium WebDriver (Java). Experienced in building automation frameworks using TestNG, Maven, and Page Object Model (POM) through project-based internship and real-time web application testing. Strong understanding of STLC, defect lifecycle, and functional, regression, and smoke testing.

TECHNICAL SKILLS

Automation Testing: Selenium WebDriver (Java), TestNG, Maven, Page Object Model (POM), Extent Reports

Manual Testing: Test Case Design, Test Execution, Defect Life Cycle, Functional, Regression & Smoke Testing, STLC/SDLC

Programming & Tools: Java, SQL, Git/GitHub, JIRA, Eclipse, VS Code

INTERNSHIP EXPERIENCE

Software Testing Intern (Automation - Project Based)

Ridsys Pvt Ltd | Feb 2026

Project: RIDSYS Web Application - End-to-End Selenium Automation

- Worked on automating a live RIDSYS web application provided by the organization.
- Built an end-to-end Selenium automation framework using Java, Selenium WebDriver, TestNG, and Maven.
- Automated key workflows including Login, Subscriber Management, Subscriber Creation, Broadcaster & Distributor setup, and CAS Force Tuning.
- Implemented Page Object Model (POM) and reusable BasePage utilities for waits, JavaScript execution, and synchronization.
- Executed test suites via Maven Surefire Plugin, ensuring stable and CI-ready test execution.

TECHNICAL PROJECTS

Java Selenium Learning Portal - Live Automation Practice

Technologies: Java, Selenium WebDriver, TestNG, Page Object Model

- Designed manual test cases and automated critical regression scenarios using Selenium WebDriver with Java and TestNG.
- Automated functional test scenarios including login, forms, alerts, file handling, and drag-and-drop operations.
- Implemented dynamic XPath and explicit waits (WebDriverWait, ExpectedConditions) for stable and reliable test execution.
- Used HTML and CSS-based sample web pages for automation practice and validation.

E-Commerce Login Automation Framework

Technologies: Java, Selenium WebDriver, TestNG, Maven, Page Object Model

- Developed a Selenium automation framework using Java, TestNG, Maven, and Page Object Model (POM).
- Automated end-to-end login functionality for an e-commerce web application.
- Implemented Extent HTML reporting with automatic screenshot capture on test failure.
- Executed automated test cases using Maven Surefire plugin (mvn clean test).
- Built reusable framework components including BaseTest and Page classes to improve maintainability.

EDUCATION

Bachelor of Technology in Information Technology | Manakula Vinayagar Institute of Technology, Puducherry | 2020-2024 | First Class

CERTIFICATIONS

Java Selenium Testing - Edusphere | Java Programming - Great Learning | Python Programming - Certiport

KEY COMPETENCIES

Root Cause Analysis | Debugging Automation Failures | Framework Architecture | SQL Database Testing | Git Version Control
